ACRONYMS & ABBREVIATIONS

OLF Outlying Landing Field

PFAS per- and polyfluoroalkyl substances

- Further investigation is underway because of potential uses of firefighting foam at OLF Harold.
- The Navy is following the well-established federal statutory/regulatory environmental cleanup process for assessment of and response to PFAS releases.
- 1 on-base area has been identified as a potential PFAS release area.
- Findings are documented in a Preliminary Assessment Report, which will be completed in 2021 and available in the Administrative Record: <http://go.usa.gov/xAEQF>.

PFAS per- and polyfluoroalkyl substances

The Navy needs your help to sample your drinking water well.

- The sampling area includes properties within 1 mile in the direction of groundwater flow from the installation boundary.
- If your drinking water is provided by East Milton Water System, the Navy does not need to sample your water.
- The Navy may expand the sampling area based on the results of the current sampling of drinking water wells.

LEGEND

- Potential PFAS release area
- Estimated groundwater flow direction
- Installation boundary
- Designated sampling area boundary
- Surface water
- Designated sampling area
